

PUBLIC LEADER

FIFTH YEAR.

MAYSVILLE, KY., FRIDAY, OCTOBER 9, 1896.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

The Continued Calls

upon THE LEADER for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Suppers,

excursions, fairs, or other public entertainments where a fee is charged, and for obituary notices, resolutions of respect, etc., THE LEADER will charge FIVE CENTS A LINE, and hereafter this will be the invariable rule. This, however.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for Business Local in THE LEADER is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local inserted in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—52 times;—the bill is \$26. When he finds it out there is a "kick" and a controversy, probably by an icy feeling. Now, to obviate this trouble, no "full forbid" notices will be accepted hereafter. Let us have a definite agreement at the outset and the termination will be pleasant all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

Mr. J. Gill Smoot of Augusta is in the city.

Miss Anna Chandler of Millersburg is visiting her sister, Mrs. Frank Armstrong of Forest avenue.

Miss Mayme Alexander has returned to Indianapolis after spending several weeks with her parents.

Mrs. N. B. Fisher of Vanceburg returned home yesterday after a visit to Mr. and Mrs. John Armstrong.

For a full assortment of Lime Fruit Tablets call at Ray's Drugstore next door to Postoffice. Telephone number 91.

Mr. J. N. Sidwell of Mason county and Miss Ada Wilson of Aberdeen were married yesterday afternoon at 3:30 in the parlors of the Central Hotel, Elder W. W. Hall officiating.

At the Opera-house tonight the lower doors will be open at 7 o'clock to ladies, and seats on the stage and the entire central section of the parquet will be reserved for them. The doors leading to the auditorium will be kept closed until the parade reaches the Opera-house.

Dobyns, once a prominent business man of this city. Two children survive, Mrs. Orr of Birmingham, and Mr. Charles C. Dobyns of this city. The remains were interred at Flemingsburg this morning.

TO CURE A COLD IN ONE DAY
Take laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

Professor Spurgeon's Pugh McKinley Brigade was out in force last night. To martial music the command paraded the principal streets, executing a number of evolutions and presenting a highly creditable appearance.

The services at the Central Presbyterian Church tonight are preparatory services for the celebration of the sacrament of the Lord's Supper Sunday morning, and every member is earnestly requested to be present.

The Rev. Alexander Kent, Pastor of the People's Church in Washington City, and who was a Delegate to the Populist National Convention in July, held forth for the Poppycocks at the Courthouse last night. Mr. Kent is by long odds the best advocate of a bad cause that has yet appeared here; but, good Lord! what a combination—Preacher, Populist and Politician!

SUNDAY-SCHOOL WORKERS.

A Plea to Those Interested in This Important Work.

We should be pleased to have the enthusiasm that now characterizes the Presidential campaign to become contagious and extend to other important measures.

This would be especially fruitful of good results if it could take hold of the Sunday-school workers of these United States.

Let the same earnest efforts be put forth and the children that would not be in Sunday-school by the first Sunday in November would be very few.

The cause is as important as the election of many Presidents, yet how little do we heed the demands of this all-important movement.

You, who profess to be Christians, and spend your time in idle discussion upon the money question, had better, by far, help to elevate the youth of our land by showing them the path that leads to the only true and lasting happiness.

The Sunday-school campaign is on in the county. Will you help? Saturday, October 11th, is Grand Rally Day.

The teachers of the schools in the county have kindly consented to enter into the work and aid in its execution. This means that every house in the county is to be visited on that day.

It is also expected that the same work will be done in this city. This will include both white and colored. The visitation will be made to awaken new interest in the Sunday-school cause with no regard to creed or sect.

The following is the form of blank to be filled out for each family visited:

VISITOR'S CARD.

Remarks:

The teachers who were not present to get the blanks for the work can get them by applying to me. I will also take pleasure in responding to any who may desire any information upon the subject.

Let us begin our campaign in earnest.

President Mason County Branch Kentucky Sunday-school Union.

VIEWS OF A LADY.

She Gives Some Good Points on the "Good Times" Promised by the Silverites.

Editor Ledger: Musicians as a class pay but little attention to politics, but this year everybody should vote—vote according to his convictions, and take good care to study up both sides, or every side of the case, before forming convictions. We all remember the beautiful picture that was held up to our mental vision before last election, by the party now in power; how if the Tariff were reduced we would have so much better times.

Well, the Tariff has been reduced, the purchasing power of the laboring classes has been reduced with it, and the country almost bankrupted. Where are those good times that were promised with a Free-trade Tariff? We have almost given up looking for them. In fact, another four years of this sort of thing would about finish up the country, so far as one can judge from present conditions.

The failure of "Tariff reform" as a "talking point" for voters, has caused that issue to drop out of the present campaign, and a far more hazardous measure in the form of the so-called "Free Coinage of Silver" to be substituted. Now, the only hope for a party to win on such an issue is through the ignorance of the masses. Those who think they are going to have "sixteen silver dollars for one gold dollar," like the "forty acres and a mule" idiosyncrasy of some time ago, may vote for the party holding out that inducement. The result, however, of such a party succeeding would produce far greater and more lasting disaster than any possible Tariff change could possibly produce, and the prospect is that the unsettlement of the basis of our currency would not be overcome for several years, and in the meantime the countless business failures, distress and suicides would form a most heartrending picture to contemplate. The talk about "Goldbugs" and such nonsense is about as silly as if the terms bedbugs or potato bugs, were used instead. Of course, when confidence in the Government is unsettled, gold will be frightened out of circulation.

Now, a single dollar in active circulation may discharge many a debt, but the dollars hidden away and taken from their normal use in business will aid in producing stagnation. The threatened change in the standard of our money has frightened capital and stopped in a measure the wheels of trade. One might just as well think of making good times by shutting up all the saloons and stopping the sale of liquors, and thereby forcing the millions spent in that way to go into other channels, as the Prohibitionist wishes to do, as to obtain good times through the coinage of silver, now worth about 58 cents on the dollar into 100 cents dollars. There would be just as much sense in closing all Churches and diverting the money spent in that direction to other lines of trade, as to give the Prohibition party its way. There would be just as much sense in coining three cents worth of copper into a dollar as to coin fifty or sixty cents worth of silver; the difference would be only in the amount of the loss or repudiation. Better not try a more than doubtful experiment with the currency of the country, because unless the party proposing it can restore confidence to the business interests of the country, the wheels of trade will continue to clog. Free trade and Free-silver are experiments that have proven dangerous ones in the past, and such as remember the panics of 1857 and before that time will put no confidence in the free coinage of silver fallacy as a remedy for hard times. It is not the remedy, and can result only in disappointment. Such measures should not be made a part of politics, to be voted on by many thousands who have not the slightest idea what they are voting for, but unfortunately it is so ordered.

Each party must have its "talking points," just as the salesmen for rival piano manufacturers have, but we have now arrived at a period when politics should become secondary to patriotism and the voter settle down to a calm and careful study of the subject before deciding to cast his vote. This is no time for meaningless burials, for the future of the country is at stake. Let the demagogic blatherskite whoop her up for the

is always open. A watch must keep time as a train must keep the track. If your watch don't keep time bring it here and we will make it right to smallest part of a second. When a watch leaves our hospital to renew its duel with Time its seconds must be reliable, and we make them so in every case. When a watch runs even with time it's ahead. opening of the Mints to the free coinage of silver, copper and pig iron; but let the wise man call for the opening of the factories and mills.

Let the copper be coined into the composition of German silver, and let this metal find its place in the banjo rims; let the iron and steel find its way into new machinery and railroad tracks; let the political parasites receive a clarion-toned, notice to quit early in November and business will revive.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:
